Subject : **Sanctions compliance – GARANT GROUP**

Dear GARANT GROUP Partner,

In the face of Russia-Ukraine tensions, most countries in the world have imposed a number of international sanctions on Russian/Belarus corporate entities and individuals with immediate effect.

GARANT GROUP, being a Lithuanian enterprise, works in strict accordance with Lithuanian and Europe Union legislation and seeks advice from the Lithuanian government on international trading.

We hereby declare that GARANT GROUP complies with all international sanctions and restrictions:

- NO additional deliveries to the Russian Navy, Russian Military, or Russian-occupied territory in Ukraine, either directly or indirectly. Belarus is included in this.
- NO deliveries to anyone or any company that is named on any sanction list released by the EU, UN, US, UK, or other relevant authorities.
- ALL Russian/Belarus (owned or controlled) customers, locations, and flagged vessels must be checked to ensure that any deliveries are compliant with the sanctions list.

Verification of the applicable sanctions as they are being implemented can be obtained, among other things, by using the search option in the following on-line databases:

EU Sanctions Map <https://sanctionsmap.eu>

OFAC Sanctions List Search <https://sanctionssearch.ofac.treas.gov/>

The above notification is considered mandatory for all GARANT GROUP activities.

Sincerely Yours,

Vasilij Pigarev

Chairman of the board
